WHO WE ARE

# Built for Manufacturing. Structured for Global Trade.

**PreRollCone.com** specializes in the manufacturing, customization and supply of smoking accessories for brands, wholesalers, distributors and retail businesses.

Our product portfolio spans pre-rolled paper cones, hemp products, palm leaf blunts, rose and lotus petal cones, flavored formats, filter solutions and customized packaging, supported by flexible manufacturing and private-label capabilities.

Beyond manufacturing, our broader business network brings together experience in international freight forwarding, customs clearance, import-export documentation and global trade coordination, enabling us to understand the complete journey of a product—from production and packaging to international movement.

**Manufacturing → Packaging → Trade → Global Supply**

OUR MANUFACTURING CAPABILITIES

# Manufacturing Built Around Product Flexibility

## Flexible production systems for diversified smoking-accessory categories.

PreRollCone.com supports bulk manufacturing across a diversified range of smoking accessories, allowing businesses to source multiple product formats through a single manufacturing relationship.

Our production capabilities support variations in material, dimensions, filter configuration, product format, branding and packaging, helping brands and distributors develop products suited to their individual markets.

### MULTIPLE MATERIALS

Paper, hemp, palm leaf, rose and lotus-based formats

### MULTIPLE SIZES

Standard and custom specifications across product categories

### FILTER CONFIGURATIONS

Paper, cotton, corn husk, wooden, glass and specialty options

### CUSTOM BRANDING

Brand-ready product and packaging customization

### PRIVATE-LABEL PACKAGING

Retail and wholesale packaging solutions

### BULK PRODUCTION

Designed to support scalable manufacturing programs

## From Standard Formats to Custom Programs

Whether the requirement is an established product specification or a customized private-label program, our objective is to create a manufacturing solution that can scale with the customer.

SUSTAINABLE SOLUTIONS FOR A BRIGHTER TOMORROW

## Biodegradable & Compostable Packaging Range

Under World Commerce Inc., we offer a growing range of sustainable packaging products designed for responsible waste management, retail use, e-commerce, delivery and industrial applications. Our biodegradable and compostable solutions provide a greener alternative to conventional plastic, helping businesses and communities reduce their environmental footprint.

### Garbage Bags
For households, businesses & waste management

### Grocery Bags
For retail stores, supermarkets & everyday use

### Courier Bags
For e-commerce, delivery & logistics

### Carry Bags
For retail, takeaway & multipurpose use

### Industrial Packaging Bags
For industrial, commercial & bulk applications

- 100% Biodegradable & Compostable
- Plant-Based Materials
- Decomposes Within 180 Days
- Durable, Tear-Resistant & Leak-Proof
- Leak-Proof Options
- Suitable for Retail, Delivery & Waste Management
- Eco-Conscious Alternative to Conventional Plastic

## A Cleaner Tomorrow Through Smarter Packaging

Our sustainable packaging range is made from plant-based materials, naturally decomposes within 180 days, and offers a reliable, high-performance solution for a wide range of applications — from retail and e-commerce to industrial use.

# Biodegradable & Compostable Courier Bags

## Secure, Sustainable & Plastic-Free Packaging for the Future

World Commerce Inc. compostable courier bags are a durable, tamper-proof, plant-based alternative to conventional plastic mailers, designed for e-commerce, D2C brands, retail shipping, and modern responsible businesses.

- **100% Compostable**
- **Tamper-Proof & Tear-Resistant**
- **Durable & Water-Resistant**
- **Lightweight & Flexible**
- **Plant-Based & Plastic-Free**
- **Writable Surface**

## What Are Compostable Courier Bags?

Compostable courier bags are mailer envelopes made from renewable, biodegradable materials that decompose naturally within 180 days in composting conditions, leaving behind only water, $CO_2$, and organic matter.

## Why It Matters

Conventional plastic packaging contributes to massive landfill waste, persists for hundreds of years, and breaks down into harmful microplastics that pollute our oceans, soil, and food systems. Compostable packaging offers a cleaner end-of-life solution, helping businesses reduce their environmental footprint and support a healthier, more sustainable planet.

## Why Choose World Commerce Inc.?

World Commerce Inc. focuses on scalable sustainability, practical performance, and supply-chain-ready packaging. Our compostable courier bags deliver the strength, security, and reliability businesses need — without special handling or changes to existing fulfilment processes.

- SCALABLE SUSTAINABILITY
- PRACTICAL PERFORMANCE
- SUPPLY-CHAIN READY

## Smarter Shipping. Cleaner Packaging. A Better Future.

Designed for e-commerce, retail dispatch, and responsible global packaging programs.

- E-COMMERCE
- RETAIL DISPATCH
- D2C BRANDS

SUSTAINABLE PACKAGING DIVISION

# Biodegradable & Compostable Industrial Packaging

## Strong, Sustainable & Scalable

World Commerce Inc. compostable industrial packaging offers a practical, scalable alternative to plastic for logistics, manufacturing, warehousing, and large-scale distribution. Made from plant-based biopolymer materials, it delivers the strength and reliability industries need — without the environmental trade-offs.

PLANT-BASED MATERIALS

CLEANER SUPPLY CHAINS

A GREENER TOMORROW

## 01 What Is Compostable Industrial Packaging?

Compostable industrial packaging refers to large-scale, heavy-duty packaging materials made from renewable plant-based sources such as corn starch or sugarcane-based polymers. These materials decompose within 180 days under composting conditions, without leaving behind harmful toxins or microplastics.

DECOMPOSES WITHIN **180 DAYS** IN COMPOSTING CONDITIONS

## 02 Key Features

**100% Compostable**
Breaks down within 180 days in industrial composting environments.

**Heavy-Duty Performance**
Built for high load-bearing, tear resistance, and rough handling.

**Moisture & Dust Resistant**
Helps protect contents during storage and transit.

**Plastic-Free & Non-Toxic**
Made from plant-based materials with no petroleum-based plastics.

**Customizable**
Available in multiple thicknesses, sizes, formats, and branding options.

**Compatible with Existing Machines**
Designed to work with standard extrusion and conversion systems.

## 03 Why Replace Industrial Plastic Packaging?

**Switching to compostable packaging helps businesses become future-ready, ESG-conscious, and aligned with sustainability goals.**

## 04 Why Choose World Commerce Inc.?

World Commerce Inc. focuses on scalable sustainability and cost-effective compostable packaging solutions, helping industries move away from plastic without compromising performance or operational efficiency.

SCALABLE SOLUTIONS

COST-EFFECTIVE SUSTAINABILITY

INDUSTRY EXPERTISE

## Industrial Strength. Compostable Future.

# Biodegradable & Compostable Garbage Bags

World Commerce Inc. – A Smarter Way to Dispose Waste Sustainably

PEOPLE FRIENDLY | PLANET FRIENDLY | A CLEANER TOMORROW

- 100% Biodegradable & Compostable
- Durable & Tear-Resistant
- Leak-Proof & Odor-Free
- Eco-Friendly & Plastic-Free
- Certified Compostable
- Suitable for Wet & Dry Waste

## A Cleaner Planet Starts with Better Choices

Our garbage bags are a 100% eco-friendly alternative to traditional plastic bags, fully decomposing within 180 days into carbon dioxide, water, and compost without harmful toxins. Made from plant-based materials, they support responsible waste disposal and a lower environmental footprint.

PLANT-BASED MATERIALS | DECOMPOSES WITHIN 180 DAYS | INTO $CO_2$, WATER & COMPOST | NO HARMFUL TOXINS

## Perfect for Everyday Waste Disposal

Ideal for homes, offices, restaurants, hotels, hospitals, and industrial waste disposal. Our bags are strong, flexible, and reliable for kitchen waste, organic waste, office trash, food scraps, and general waste.

## Join the Sustainability Movement

Let's create a cleaner, greener and plastic-free future. Choose World Commerce Inc. and make a positive impact for a healthier planet — together.

World Commerce Inc.

SUSTAINABLE PACKAGING DIVISION

# Biodegradable & Compostable Carry Bags

## World Commerce Inc. – 100% Eco-Friendly Carry Solutions

World Commerce Inc. biodegradable and compostable carry bags offer a practical eco-friendly alternative to traditional plastic bags. Designed for retail, grocery, restaurant, and everyday carry needs, these bags decompose within 180 days under composting conditions, leaving behind only carbon dioxide, water, and compost. Built for sustainability without compromising usability, they support responsible packaging choices and a cleaner future.

- **Decomposes within 180 days**
- **Plant-based materials**
- **Supports a circular economy**
- **Retail-ready & customizable**

## Why Choose World Commerce Inc. Carry Bags?

### Eco-Friendly & Compostable

Breaks down completely without harming the environment.

### Durable & Reliable

Designed to be strong, tear-resistant, and suitable for everyday carrying.

### Sustainable Alternative

Helps reduce plastic waste and supports greener living.

### Versatile Use

Ideal for shopping, grocery stores, restaurants, retail, and packaging applications.

## How It Works

Made from plant-based materials, these compostable carry bags deliver the functionality of conventional carry bags while remaining 100% compostable. Once disposed of in suitable composting conditions, they break down naturally instead of persisting in landfills or oceans.

## Perfect for Businesses and Individuals

Suitable for retailers, supermarkets, farmers' markets, restaurants, and eco-conscious consumers, World Commerce Inc. carry bags support sustainability goals while offering reliable everyday performance.

Retailers | Supermarkets | Farmers' Markets | Restaurants | Individuals

# Biodegradable & Compostable Grocery Bags

## World Commerce Inc. – A Smarter Choice for Environmentally Conscious Shoppers

World Commerce Inc. offers biodegradable and compostable grocery bags made from plant-based materials, designed for everyday shopping and retail use. These bags naturally decompose within 180 days and support cleaner, more responsible packaging choices for modern businesses and consumers.

PLANT BASED MATERIALS

CLEANER SHOPPING BRIGHTER TOMORROWS

- 100% Biodegradable & Compostable
- Naturally decomposes within 180 days
- Durable & Tear-Resistant
- Eco-Friendly & Plastic-Free
- Odor-Free & Non-Toxic
- Certified Compostable
- Multipurpose & Versatile

## A Smarter Choice for Everyday Shopping

Our biodegradable and compostable grocery bags are sturdy enough for fresh produce, dairy, dry goods and everyday groceries. Designed for practical daily use, these bags break down naturally – helping to reduce plastic waste, microplastics and carbon footprint, unlike traditional plastic bags.

## Ideal for Businesses & Retailers

Perfect for grocery stores, retail shops, farmers' markets, restaurants, supermarkets and eco-conscious businesses. Our grocery bags help support sustainability goals and align with changing regulations and growing consumer expectations for responsible, plastic-free packaging solutions.

## Join the Plastic-Free Revolution

Make the switch to sustainable grocery packaging and contribute to a greener, cleaner future with World Commerce Inc.
